Appropriate Use Criteria Update

AUC Update

The **2023 proposed rule** did not contain any information on the Appropriate Use Criteria program but....we did get this notice on the official CMS website:

NOTICE: The payment penalty phase will not begin January 1, 2023 even if the PHE for COVID-19 ends in 2022. Until further notice, the educational and operations testing period will continue. CMS is unable to forecast when the payment penalty phase will begin.

There is no new timeline for the program available at this time.

Reimbursement Proposals

Reimbursement Proposals

The **conversion factor (CF)** is a multiplier used by **Medicare** applied to relative value units (RVUs) to calculate reimbursement for a particular service using the following formula:

Medicare PFS Payment Rates Formula

$$\text{Payment} = \left(\text{Work RVU x Work GPCI} + \text{PE RVU x PE GPCI} + \text{MP RVU x MP GPCI} \right) \times \text{CF}$$

- Updates to the CF apply to ***all*** procedures paid by Medicare
- Updates to RVUs apply to specific procedures

Reimbursement Proposals

- **2023 Proposed Conversation Factor**

2022 Final* CF		\$34.61
*This is the 2022 CF of 33.59 + 3% increase from Protecting Medicare and American Farmers from Sequester Cuts Act.		
Statutory Update	0%	
2023 Budget Neutrality Adjustment	-1.55%

Reimbursement Proposals

- **What's driving the 2023 proposals?**
 - **2021 Evaluation and Management (E&M) Overhaul**
 - CMS revised requirements for code selection and increased RVUs for patient office visit codes
 - This would have initially resulted in ~10% cuts towards specialties in 2021
 - Consolidated Appropriations Act (CCA) delayed the use of one e/m code for 3 years and added +3.75% (\$3 Billion) to CF
 - **2022 Clinical Labor (PE RVU) Pricing Update**
 - CMS opted to phase in labor pricing updates over 4 years
 - **Protecting Medicare and American Farmers from Sequester Cuts Act**
 - 3% increase to CF expiring at the end of this year

Reimbursement Proposals

- **Real world impact of fee schedule proposals will vary greatly by case-mix and location**
 - EX – facility vs non-facility
- **Additional Non-Fee Schedule Medicare Cuts to Keep in Mind**
 - **-2% Sequester cut fully resumed July 1st 2022**
 - **-4% PAYGO cut delayed until 2023**
 - Requires congressional intervention to waive budget control requirement triggered by CCA

Reimbursement Proposals

- **Colorectal Cancer Screening Coverage**

- CMS has proposed to align coverage of colorectal cancer screens with revised USPSTF recommendations
 - Lowers eligibility age from 50 to 45
- Proposing to expand definition of colorectal cancer screening to include a follow-on screening colonoscopy after a positive result on a Medicare covered non-invasive stool-based screening test.
- If finalized, colonoscopies will be paid at 100% without patient cost sharing.

Physician Supervision

Physician Supervision

- **Level 2 Physician Supervision Via Audio/Video Communication**

CMS announced that there will **not** be an extension of current PHE flexibility to allow physicians to provide level 2 supervision via audio/video communication.

After December 31 of the year in which the PHE ends, the pre-PHE rules for direct supervision at would apply *presuming CMS does not alter this proposal* when issuing the final rule for 2023.

Evaluation and Management (E&M) Split Visits

Evaluation and Management (E&M)

CMS is proposing to **delay** the split (or shared) visits policy finalized in CY 2022 for the definition of substantive portion (more than half of the total time)

If finalized the substantive portion of a visit may be met by any of the following elements in 2023:

- History.
- Performing a physical exam.
- Making a medical decision.
- Spending time (more than half of the total time spent by the practitioner who bills the visit)

Telehealth

Telehealth

Many CMS proposals for TeleHealth codify requirements of the Consolidated Appropriations Act of 2022 (CCA) within the fee schedule for 2023 to preserve flexibilities for **151 days beyond** the end of the public health emergency, specifically:

- Allowing telehealth services to be furnished in any geographic area and in any originating site setting, including the beneficiary's home
- Allowing certain services to be furnished via audio-only telecommunications systems
- Extend the duration of temporary codes on the CMS telehealth list for 151 days beyond end of PHE
- Delays the in-person visit requirements for mental health services furnished via telehealth until **152** days after the end of the PHE.

Telehealth

- **CMS proposing to use PLACE OF SERVICE indicator to indicate telehealth encounters after 151 days following the end of the PHE**
 - Modifier 95 has been used during PHE due to location related waivers
- **Modifier 93 proposed for use of identifying audio-only encounters after 151 days following the end of the PHE**
